### A Great Remedy.

The merits of Chamberlain's Colic and Diarrhoea Remedy are well known and appreciated, but there is occasionally a man who had no acquaintance with them and should read the following by F. H. Dear, a hotel man at Dupuyer, Mont. "Four years ago I used Chamberlain's Colic and

Diarrhoea Remedy with such wonderful results that I have since recommended it to my friends."

## NATIVE ASPHALT FOR ROADS

Large Deposits of Peculiar Rock Are Being Utilized in Parts of the Country.

"While there are no asphalt deposits in this country anywhere near the size and purity of the mysterious pitch lake in Trinidad, the asphalt deposits of California and the Rocky mountain region give promise of supplying a vast amount of bituminous rock with which we can cheaply surface our miles of unimproved roads," said C. R. Harrington of Los Angeles, while in Washington recently.

"Experiments have shown that this bituminous rock could be used for paving both country highways and city streets. If carefully laid and maintained the pavements would be durable and clean and would produce relatively little noise and dust. However, this native asphalt is not fitted for use in paving city streets.

"European countries use large quantities of bituminous rock in building roads, and if the United States would adopt the same practice much oil for other purposes would be released."—Washington Post.

## DIVIDING A SMALL CIRCLE

Method Recommended by Popular Mechanics Magazine Will Be Seen to Have Advantages.

When it is desired to lay out divisions on a small circle with accuracy, it is difficult to do the work with dividers. The best way is to lay out a circle as large as possible concentric with the one to be divided; divide the large circle as accurately as possible, and then transfer the divisions to the small circle by drawing straight lines to the center with a straight-edge. The advantage of this method is, first, that it is easier to work on a large scale and second, that whatever errors there may be in the large division will be reduced in the small circle though, of course, the proportion will remain the same. Much the same plan can be used in dividing a straight line or an arc.—Popular Mechanics Magazine.

## USE FOR OLD MINES.

Even old abandoned mines are going to be put to some possible use, according to the following: A mine superintendent in the Joplin-Miami, Mo., district has visions of making a fortune out of mushroom raising in the abandoned mine drifts in that section. They are continually warm, just about moist enough, and in those where moles have been utilized for ore hauling there is plenty of good soil. The superintendent has rigged up an ingenious electric lighting scheme with tinted globes, some one having told him mushrooms must have a little light, even if it is not sunshine, and he has planted his first bed and is awaiting results. If it works, he estimates there is enough acreage in the abandoned mines in the whole district to produce mushrooms for the whole world.

## PHOTOGRAPHY SIMPLIFIED.

The business of making photographic enlargements has been simplified by the construction of a vertical enlarging camera which is suspended overhead and projects its light down upon a sensitized sheet which is placed on a table under it. The arrangement and manipulation of the paper is much more conveniently done in this position.—Indianapolis News.

## NO WONDER.

District Visitor—Well, one must do something for the suffering poor. Friend—But are you sure they do suffer?

District Visitor—Oh, yes; I visit them.

## CIRCLE UNTO THEMSELVES.

"We ought to ostracize profiteers," said the indignant citizen.

"What's the use? There are enough of them to hire jazz bands and give large parties for their own entertainment."

## MATCHES THE FITTINGS.

"How did Agnes come to marry a man over seventy?"

"She says he harmonizes so well with the antique furniture her mother left her."—Boston Transcript.

## Double Assurance of Dependable Lubrication

The tractor actually rides on a film of oil. On the axles, transmission, shafts, gears, and all the moving, wearing parts, this film of oil must be maintained or trouble and destruction quickly follows.

The more perfect this film of oil is maintained, the more perfect is the operation of the tractor and the longer its life.

The Rumely OilPull motor is distinguished above other tractor motors because it gives twice the assurance of perfect lubrication—because it has two main systems of lubrication rather than one.

First, there is provided the positive, force-feed, fresh oil, Madison-Kipp mechanical lubricator which pumps a continuous flow of fresh oil to all the major

moving parts—cylinders, pistons, crank shaft, crank shaft bearings, etc.

Second, the designers of the OilPull, to insure unquestioned dependability of lubrication, have added the splash system which throws a constant spray of oil to all the moving parts within the motor.

And this dual lubrication system is but one of the many features responsible for the OilPull's remarkable record of performance—which makes the OilPull supreme in quality, and cheapest in cost per year of service.

Four sizes are built—12-20, 16-30, 20-40 and 30-60 H. P.—standard in design. The famous Rumely line also includes five sizes of the time-proved Ideal separators. Write for catalog.

## ADVANCE-RUMELY

### WORN NERVES.

Nervous troubles, with backache, dizzy spells, queer pains and irregular kidneys, give reason to suspect kidney weakness and to try the remedy that has helped your neighbor. Ask your neighbor!

Mrs. George Williams, 1801 Bloom St., Lexington, says: "My back ached and pained dreadfully some five years ago. I used Doan's Kidney Pills and they certainly gave me fine relief. I was troubled with awful lameness and soreness in the small of my back at times. When I stooped over it was almost impossible to straighten because of the severe pains. Often little specks would come before my eyes, blurring my sight. My kidneys acted irregularly, causing me a lot of trouble. I became very nervous and weak and suffered most of the time. As another member of the family had used Doan's Kidney Pills with good success I got a few boxes and they entirely cured me of the trouble."

60c. at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

### A Convincing Argument.

A furrier was showing a coat to a lady customer.

"Yes, ma'am," he said. "I guarantee this to be genuine skunk fur that will wear for years."

"But suppose I get it wet in the rain," asked the lady, "what effect will the water have on it? Won't it spoil?"

"Madam," answered the furrier, "I have only one answer. 'Did you ever hear of a skunk carrying an umbrella?'"—Houston Post.

### Baby Chick Feed.

Nine grain mixture, balanced rations. Makes young chicks grow. Phone 158.

Wardner & Connor.

A home talent play will be given under the auspices of the Woman's Club at the Grand Theatre on the evening of November 11.
